Emergency contact of owner cannot be reached: _____

Name Phone number

Is mare/foal insured _____ Insurance carrier and phone number _____

We will make every attempt to contact you should your horse experience a severe case of colic, serious injury or illness while residing at Sierra Blanca Equine. However, in the event that such an emergency arises at the ranch, and we are not able to reach you, it is important that we know in advance your instructions as to the desired treatment of your horse.

Accordingly, please assist us in this regard by completing the simple form below. Check either option 1 or 2, if check option 2, you must indicate a monetary limit for treatment.

_____ Option 1 I request that the Sierra Blanca Equine veterinarian do what ever is necessary, regardless of the cost involved, to attempt to save my mare/foal, including shipping the horse to an equine medical clinic for evaluation and/or surgery.

_____ Option 2 I request that the cost of treatment be limited to \$ _____. If in the opinion of the Sierra Blanca Equine veterinarian such treatment will exceed the above limit, I authorize Sierra Blanca Equine to have the horse euthanized.

Again, be assured that we will do our best to contact you if your horse has a medical emergency. If we cannot reach you, we will strive to keep the cost of treatment within the limitation, if any indicated above. However, Sierra Blanca Equine cannot guarantee that any such limitation will not be exceeded. This form is for information purposes only and is overridden by the Breeding Contract or other written agreement which sets forth the rights and obligations of all parties in connection with the boarding and care of your horse.
